

SAFE. STABLE. SMILING.

WE TOTALLY UNDERSTAND. SERIOUSLY, WE DO.

Putting your dental health first is the last thing you're worrying about when working on your never ending to-do list. Between the cost and anxiety surrounding any visit to a dental office to the demands of your everyday life, we understand how everything else becomes way more important than your own basic care.

And when you either don't have traditional dental benefits (for what they're worth) or have the Oregon Health Plan (OHP)/Trillium dental coverage (but haven't received the care you deserve) we know it's that much more frustrating for you, especially when the unexpected happens and you or your loved ones need help now.

When it comes to caring for your teeth and gums - when it comes to caring for your smile for the rest of your life - an ounce of prevention is worth more like a five gallon drum of cure. Maintaining your dental health *now* can save you and your family the chaos, and expense, of dental emergencies *later*.

That's why the team at 5-star rated Smiles4Oregon wants you to finally know what it's like to feel safe, to know you're able to get the care and coverage you deserve when you need it, that you're part of our dental family, that you can make in-house, no-interest payment arrangements, and, most important, you know that when something *does* happen we've got your back - so you can get back to enjoying your life.

With our in-house "Vital Care" plan, and it's cohorts "Family Care" and "Perio Care", we're able to do just that: help folks all over Oregon finally be able to afford to manage their oral systemic health, therefore assisting in their overall health. After all, what fun is life if you can't smile, talk, eat, or sing as you were meant to? When you don't know where to turn or who you can trust?

Our affordable "Care" plans are tailored to be your most comprehensive, trustworthy and affordable option. With all the Care plan benefits, plus our exclusive in-house, no-interest and "no funny business" payment arrangements, together we'll find a way to keep you and your loved ones safe, stable and smiling.

with your Care plan, you'll always have a safe dental home

PERIO CARE *to Treat Chronic Disease*

"Gum disease" - also known as periodontal disease - is a hidden epidemic. The toll that the ongoing and chronic infection takes on not just your gums, teeth and jaw but your entire immune system cannot be overstated. Studies have even found a direct link between the "bugs" that cause gum disease and fatal events like heart attacks and strokes, and now even dementia! Luckily, at Smiles4Oregon we provide quality periodontal treatment, and for those of our clients without traditional benefits, we created Perio Care for when Vital Care isn't enough to get you safe, stable and smiling.

The healing process involves being cared for through a series of visits, delivered over the course of about a year until the disease is either cured or under control. For those for whom it remains a chronic yet controlled disease, Perio Care is the most affordable option out there to keep yourself - and your entire system - safely healthy.
