

Welcome

WORKING SAFELY TOGETHER DURING THE COVID-19 PANDEMIC

We are grateful to be able to treat you and your family during the developing Covid-19 pandemic, as your oral health is inexorably linked to your overall systemic health. Making sure your needs are met and essential and/or emergency treatment is appropriately and safely delivered according to current federal, state and local agency guidelines is our number one priority. In order to do our best to keep you safe, we are taking every precaution possible to limit the exposure of any virus within our office, and we ask that you help us by participating in the following precautions. We will continue to adjust our policies as the situation unfolds and we appreciate your cooperation.

1. Upon your arrival, please make use of the hand sanitizer we have provided.
2. Please disinfect your hands prior to using your pen to fill out any forms. We have provided a pen for you to use and keep as your own.
3. If using our restroom, or upon exiting and then reentering our office, please use the hand sanitizer upon reentry (there is hand sanitizer in the restroom as well as our front room).
4. After using the restroom, please wash your hands with warm water and the antibacterial soap we have provided and dry thoroughly with the paper napkins provided.
5. Please inform us if you or a loved one are currently experiencing a fever, a dry cough, or are having difficulty breathing.
6. Please follow social distancing protocols while in our office including staying 6 feet apart from other visitors, refraining from the usual hugs and handshakes that have previously defined our office.
7. Please inform us if you or a loved one have traveled recently, either within the United States or abroad.
8. Please enjoy our 3% hydrogen peroxide mouthwash, which may help to destroy coronavirus (available in the operatory).

thank you
smile forward ♥
